Security and ID Protection

Emergency Contact Data does not ask for your driver's license, social security number or date-of-birth, nor does it store your credit card number. Your member information is transmitted securely and stored on PCI compliant servers protected by high-security firewalls. Your password is encrypted and known only to you. The service is not governed by HIPAA. Emergency Contact Data does not pass-on or sell your data to third-parties.

BMW MOA recommends being prepared for all emergency situations, at-home and on-road.
